

Oral Surgery, Dental Implantology and All-on-4 Implants

An Oral Surgeon has an interest in surgery of the oro-pharyngeal area. An Implantologist is a dental surgeon that has a special interest in placing dental implants for patients with missing teeth. Implants are a long term reliable alternative to dentures and bridges.

Dr Viraj Patel

Oral and Dental Implant Surgeon
BDS(hons), MJDF RCS Eng, PgCert Clinical Teaching
RCGP, PgDip in Advanced Implant Dentistry (NYU)

Viraj qualified as a dentist in 2012 and undertook hospital training in Maxillofacial and Oral surgery in 2014 and since has attended multiple Dental Implant courses within the UK. He also completed the world-re-nowned 2 year Advanced Implant Dentistry Program in New York; famous for training some of the lead dentists currently within the field of implants. Here he excelled, picking up multiple awards and gaining lots of clinical experience, which has led to him being invited to present his work and lecture on the global stage. His main focus is in implant dentistry. He has also gained valuable experience in cosmetic dentistry including becoming a certified Cfast braces provider, Invisalign provider and Mini Smile Makeover provider.

Viraj prides himself on his ability to deal with nervous patients and make them feel comfortable within the dental setting.

Dr Adeel Ali

Oral Surgeon and Implantology
BDS MJDF RCS

Dr Ali has trained under some of the most prominent professors in dentistry and throughout his career he has sought to further his skills and develop his practice to the highest possible standards. Whilst studying, Dr Ali discovered a love for the artistic side of dentistry. By the fourth year of his studies, he was spending hours in the lab blending his scientific knowledge with the practical and aesthetic aspects of dentistry.

Dr Ali worked under the esteemed dental implant surgeon Dr Balwant Vekaria, a renowned lecturer and globally recognised expert in the area of implant surgery. Dr Ali chose to concentrate on implant dentistry as he was fascinated by the immense impact this restorative work had on patients' physical and emotional wellbeing and wanted to contribute to enhancing and improving the discipline.
